

Ms. Sundberg, this is Bob Egan from USEPA. I am trying to verify whether you have received my emails regarding access to the Highway 70 property to conduct a pilot test for cleanup technologies. Although some of the testing activities are covered under the current consent form, we may be conducting other activities which we would like to discuss with you and request access for. Your phone mailbox is full so I thought I'd try to text. Please respond as soon as you can. Thank you.

Hi. I'm on the road. Yes I received it and it all should be covered by the access agreement we signed w the tribe. Let me check w Kristen. Sorry I've been slammed.

Thank you for the response. I didn't mean to hound you to get back to me but we are trying to get a bunches of work done before winter if we can. The reason we at EPA believe it necessary to have a revised consent form for us specifically is that our attorneys do not consider the tribal access to be sufficient for us. Also as I think we discussed on the phone several weeks ago, we may be attempting a test pit in the Uncontaminated area of your property and away from the asphalt to see if excavation is a good option to remove much of the contamination. This activity is not covered under our original consent form. So that is why we've asked for another consent from you. I can provide as many details as you would like once we get a work plan finalized and before we head out to have the work done. We are coordinating all this with LDF and they will be reviewing our plans also. Thank you again and I apologize for the lengthy text. If responding to the email with a signed consent form is not possible in the near future, a response from you by text will suffice temporarily until we can get the paperwork done. Regards, Bob

Ms. Sundberg, have you had a chance to consider the new access consent form for the Lac du Flambeau property? Thank you. Bob Egan

Hi Bob, I signed an access agreement with the LDF tribe that was all encompassing that allows you to access the land under their coordination. I forwarded to REI the information the BIA requires for this type of work that is imperative to our property's value. Can you please contact Kristen Hansen. I'm at a conference in Washington this week and best to text if you have any trouble.
